

Cookie Policy

Last updated: 31 August 2026

This Cookie Policy explains how CONVERTVIBE LTD ("ConvertVibe", "we", "us" or "our") uses cookies and similar technologies on convertvibe.io. It reflects the live configuration of this website and is kept up to date as the site develops.

1. What cookies are

Cookies are small text files placed on your device by a website. They are widely used to make websites work, to keep them secure, and to remember information between pages or visits. Similar technologies - such as browser local storage and session storage - can store small pieces of information in your browser in a comparable way.

2. How we use cookies

ConvertVibe uses only strictly necessary cookies - the cookies required for the website to function securely. We do not use analytics cookies, advertising cookies, social media pixels or any other form of cross-site tracking on this website.

Because we only use cookies that are essential to provide the service you request, the law does not require us to obtain your consent before setting them. We still tell you about them here, and we show a short notice when you first visit so you know where things stand. If we ever introduce non-essential cookies (for example, analytics), we will ask for your consent before they are activated and update this policy first.

3. Cookies we use

The following cookies are set only when an authorised administrator signs in to the ConvertVibe dashboard. They are not used to track visitors to the marketing pages of this website.

Cookie	Purpose	Type	Duration
access_token	Keeps the authorised administrator securely signed in to the ConvertVibe dashboard.	Strictly necessary (secure, httpOnly)	1 hour
refresh_token	Allows the administrator session to be renewed securely without signing in again.	Strictly necessary (secure, httpOnly)	7 days

Both cookies are set with the Secure and HttpOnly flags, which means they are sent only over encrypted connections and cannot be read by scripts running in the page.

4. Similar technologies we use

This website also stores a small number of preferences in your browser's built-in storage. These are not cookies, are never sent to our servers beyond their intended function, and are used only to improve your experience of the site:

Item	Purpose	Storage	Duration
cv_intro_seen	Remembers that the intro animation has played so it is not repeated on every page load.	Session storage	Deleted when the browser session ends
cv_cookie_notice	Remembers that you have dismissed the cookie notice so it is not shown again.	Local storage	Until you clear your browser storage

5. What we do not use

- ? No analytics or performance cookies (for example, Google Analytics).
- ? No advertising, remarketing or social media tracking cookies or pixels.
- ? No third-party cookies set by advertisers or data brokers.
- ? No fingerprinting or cross-site tracking technologies.

If any of this changes, non-essential technologies will remain switched off until you have made a choice, and this policy will be updated before they are introduced.

6. Managing cookies in your browser

Most web browsers allow you to view, delete and block cookies through their settings. You can usually find these controls in the 'Privacy' or 'Security' section of your browser's settings. Please be aware that blocking strictly necessary cookies may prevent parts of this website - such as the administrator dashboard - from working correctly.

You can also clear this site's stored preferences at any time by clearing your browser's site data for convertvibe.io.

7. Changes to this Cookie Policy

We may update this Cookie Policy as the website, its technology or legal requirements change. The latest version will be published on our website and the 'Last updated' date will be amended. The live cookie configuration is checked before this policy is updated.

8. Contact us

If you have any questions about how we use cookies or similar technologies, please contact us:
